

Uruguay
**Innovation
Hub**

Innovate to Collaborate:
Forging Synergies in Science,
Technology, And
Innovation

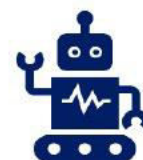

Uruguay ?

Yes, Uruguay

We were **innovative**
from our beginnings

We are the country with the **most student robotics** per capita in the world

We produce and launch **satellites into space**

Uruguayan students have won competitions three times to **design space stations for NASA**

95% of the country's energy matrix comes from **renewable sources**

And More

Innovation as a distinctive feature

-  The size of the country
-  Uniformity in geographical terms
-  Demographic diversity
-  Culture and critical thinking
-  Innovation in education and civil rights

Uruguay as a test bed for cutting-edge policies

We are innovative

Acceleration

Ecosystem Development

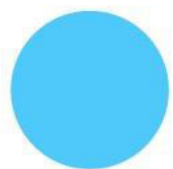

Open Innovation

Articulation

Uruguay Innovation Hub

Test Uruguay
